

## JUDGE O'BRIEN GOES TO GOLDFIELD

WILL TRY A NUMBER OF CASES AT THE REQUEST OF JUDGE LANGAN.

Judge J. P. O'Brien of this district leaves this morning for Goldfield to try a number of cases at the request of Judge Langan of Esmeralda county. He will return tonight to be present to receive the report of the Grand Jury on Thursday, and will go back to Goldfield again on Friday to remain until Saturday night.

What cases Judge O'Brien is to try, he does not know. They are of a civil nature, and the docket of Esmeralda county is so crowded that Judge Langan had to get relief from some source, and Judge O'Brien has accommodated him, as is the courteous custom between jurists of adjacent counties.

## EXPECT MORE DETAILS TODAY

Five men, who were arrested on suspicion of the murder of the Mexican at Beatty on Sunday last, have been released and the sheriff's office here is without further knowledge of the murderer. The office is equally in the dark regarding the murder, which took place at Pahump, but they expect that additional details will be received today.

## KENDALL'S AUTO CAUSED IT ALL

LOSS AND RECOVERY OF MACHINE LIKE AN OPERA BOUFFE.

The loss and recovery of Zeb Kendall's auto has all the element of opera bouffe, burlesque and the Butler theater, dashed with the spice of the Jesse James border drama.

Otto Blumgrin, the big Swede chauffeur of the big red auto that belong to big Zeb Kendall, stole the kerosene cart, and mahouted away to Goldfield, where there are pitfalls for the unwary, and Swedish young women who like the redlights and the merry flup of the corked malt and the tuneful honk, honk of the touring car.

The machine was too big a thing not to be missed, and Zeb Kendall proceeded to miss it. He reported it to the police, and the police got busy here and in Goldfield. Mike Cahalen, deputy sheriff of Goldfield, the big balliff (everything is big in the story—it is a big story) of Judge Langan's court, found the automobile on the street, and locked it up. Then he found the sportive Swede, and locked him up. The police of Tonopah wanted the mahout, and Zeb Kendall of Tonopah wanted his machine. Cahalen volunteered to bring both back here at the same time, and the peculiar situation of a man speeding himself and his captor back to jail was to be presented. Judge Langan said that he didn't want the Swede, so the procession started.

The big balliff told the big Swede that he knew big "Shorty" Kendall, and that he would talk to him when they got over here. The Blumgrin professed to be pleased, and so they started. They got half way over, and something broke down. While they were patching things up along came Tom Kendall and Jim McQuillan. The former alighted and ran over to the stranded ship of the desert.

"What's the matter?" he asked.

"What's it to you?" demanded the chauffeur.

Kendall saw who it was; then he saw the deputy; then he laughed like fun.

"Oh, it's you?" he said. "Well, can we give you anything, any car-baretors, any gasoline, water—any light?"

"No, we bane want nothin'" snarled the Swede.

"I want to tell you something, Mr. Swede," said Mr. Cahalen, softly; "we're going to Tonopah, and you can walk or ride, just as you please. But don't forget that we are going just the same."

The repairs were made with alacrity, and they were once more on the way. Darkness overtook them, and there were no lights. The Swede had lied about the lights. Then the deputy got very wary, and he told the mahout that it was Tonopah, ride or walk; but it was Tonopah anyhow.

All went well after that until they were nearing Tonopah. Those who know the road between here and Goldfield will remember the two big jagged rocks just at the top of the hill entering the town. You have to go off the road to hit one of them, and to hit one of them means a busted tire, or a roll over. Well, the Swede chauffeur missed one of them, but the second he cracked in fine style. Cahalen saw that the machine wouldn't miss it, so he held on tight with his left hand and he grabbed the mahout with his mighty right.

"You don't stop to fix that tire," he said; "go right on to Tonopah."

And on they came, and the auto halted in Brougher avenue, and the mahout halted in the jail. He had chauffeured himself to the calaboose and Cahalen didn't speak to Zeb Kendall about a reprieve either.

The Swede mahout was arraigned before Judge Brissell yesterday morning and after being instructed as to his rights, the case went over until this morning.

## NO EXPLANATION FOR THE DECLINE

BELMONT DROPS TO \$2.00 BID—THE MARKET IS GENERALLY OFF.

The stock of the Belmont Mining Company took the lead in the downward movement of the shares of southern Nevada yesterday, dropping from \$2.50 to a bid of \$2 a share. No explanation could be given here for the decline, as the mine never was looking better. The motive in the East for the tumble was the passing of the ten-cent dividend on the day before. The last dividend was also passed three months ago, when the mill was just completed. Lack of power has prevented the mill from running to its capacity, and the production, in consequence, has not been what it should be.

The market generally was ill-behaved, the downward motion seeming to possess all the stocks.

## MRS. RUTH DAVIS TAKEN TO CARSON

Mrs. Ruth Davis, the negress who murdered her husband, George (Devil) Davis, and who was convicted of manslaughter, and sentenced to one year's imprisonment in the State penitentiary, spent her first evening in the bastle last night. She was taken to Carson yesterday morning by Sheriff Owens.

With good behavior the woman will be able to complete her sentence in nine months. She is the only female occupant of the prison, and it is possible that she will be assigned to the kitchen, as she is said to be a good cook.

### TIPIUTE AND GROOM.

Prospectors Report Times Lively in Those Districts.

A. H. Dickson and Frank Hargett returned Monday from a prospecting trip in the vicinity of the old Tipiute and Groom mining districts, about fifty miles east of Rhyolite. These mines were opened several year ago and worked for silver. The Tipiute has considerable machinery, including hoist and air drills, and has been a producer. Smith's camp, twelve miles distant, is being worked at present, and they are sacking ore for shipment which carries silver and gold. The Groom mine, one of the old-timers, was recently sold and is said to have changed hands for the respectable sum of \$250,000. Goldfield people are interested and at a depth of fifty feet the ore assays \$80. Mr. Dickson says the country north of Groom looks good to him. One company had a hole down twelve feet when they were there and the whole bottom of the shaft was in ore that panned well. The veins increase in size and richness with depth. Caliente, the nearest railway station is about fifty miles distant, and they are about forty miles from the rich Parangat valley, where fruit, vegetables and hay are grown in abundance. At Hiko they sell hay at 1 cent per pound, but grain costs 4 cents. The fruit and fresh vegetables are especially fine. Dickson and Hargett secured some claims north of Groom which look very promising, and they predict a substantial interest in that section this fall.—Rhyolite Herald.

### SAVE A FORTUNE.

NEW YORK, Sept. 24.—George C. Taylor, son of Moses Taylor, who was one of the wealthiest merchants in his day, is dead at his home at Great River, aged 72. He lived in retirement a long time. He never engaged in business, but it is believed that a fortune equal to if not superior to that left him by his father and from which he enjoyed an annual income, while not allowed to touch the principal. His father left him \$20,000,000.

## SAYS GREENWATER IS LOOKING UP

C. E. KUNZE JUST IN FROM THAT GREAT MINING SECTION.

C. E. Kunze, who, with his brother, Arthur, arrived a few days ago from Greenwater, says that the camp which has been very quiet for several months is now showing signs of returning life.

"Patsy Clark," said he, last night, "had left the camp, presumably for good, and was going to settle in Mexico. He was obliged to do some further work on his Furnace Creek property in order to secure his patent, and that work developed ore that made Patsy change his mind about Mexico. He is down to the 500 level and it was there that he found the ore. What the values are I do not know, but they must evidently be all right to recall him from Mexico."

"The Greenwater and Death Valley have a number of shafts sunk and are crosscutting on the upper levels. Just before we left there, they were into a body of ore for fourteen feet and had not got through it. A little more work like this will soon have the camp back to her old condition, and if it is as good a winter as it was last winter, nothing more could be asked for."

## MEASURES FOR FIGHTING PLAGUE

The team will commence practicing next Sunday at the ball grounds on California Heights, and all football players and those who are interested in the sport are requested to report there at 1:30 p. m.
